

AmeriCorps

Each year the senior class is offered the opportunity to participate in one of the largest service learning programs in the United States—AmeriCorps. Students who enroll in this program provide 300 hours of community service to an approved site (Sanford High School) and in return receive \$1,200 to be used toward defraying the cost of post secondary education. The stipend can be used anytime in the next 7 years at almost any institution across the United States.

Several site restrictions and prior approval of the community site and service must be made by the AmeriCorps Project. For more information please contact Mrs. Svaldi at 274-5167.
